Abstract Copyright Transfer and Other Terms

1. The Presenting (First) Author has obtained consent from ALL authors and company sponsors of the information in this submission ("Abstract") to transfer and assign to the American Society of Nephrology ("ASN") all rights of this Abstract, in all forms and media, and of whatsoever kind of nature, including those now and hereafter protected by the copyright laws of the United States and all foreign countries, as well as any renewal, extension, or reversion of copyright, now or hereinafter provided in any country.

2. This Abstract is deemed to include all material submitted for publication and includes text, figures, tables, and author contact details accompanying this Abstract.

3. I confirm that ALL authors of this Abstract represent and warrant that they have made significant contributions to this Abstract and that they had full "freedom of investigation" during all phases of this Abstract as defined by the absence of external interests in any phase of the conduct of this Abstract.

4. I confirm that ALL authors of this Abstract represent and warrant that their contribution to this Abstract is original and not published elsewhere and that this Abstract contains no matter libelous or otherwise unlawful or which invades the right of privacy or which infringes on any property right.

5. I confirm that ALL authors of this Abstract represent and warrant that this Abstract has not been previously published or has not been accepted for publication as of May 21, 2025. If portions have been previously published, permission has been obtained for publication by ASN, and I will submit a copy of the permission release and copy for credit lines with this Abstract. If this an un-refereed manuscript of this Abstract has been posted to a community preprint server, I will disclose that information and update the archived preprint version with a link to the ASN Abstract Supplement PDF.

6. If artificial intelligence tools such as ChatGPT were used to create content or assist with writing or abstract preparation, I confirm that (a) authors take responsibility for the integrity of the content generated by these tools, and (b) I have reported the use of artificial intelligence, language models, machine learning, or similar technologies to create content or assist with writing or abstract preparation in the Methods section if this is part of formal research design or methods.

7. I confirm that ALL authors of this Abstract have submitted their own disclosures of any/all relationships (financial and other interests) in the spirit of total transparency.

8. ASN recognizes that work prepared by a U.S. Government officer or employee, as part of his/her official duties, is not eligible for U.S. copyright. If ALL authors of this Abstract fall in this category, please select the second radio button below.

9. I confirm that ALL authors of this Abstract shall indemnify and hold harmless ASN, its officers, agents, directors, and employees against any and all claims, losses, damages, liabilities, and expenses (including legal costs and expenses or actions in respect thereof) arising from any breach of this agreement or ASN's publication of this Abstract.

10. If this Abstract is not accepted by ASN or is withdrawn prior to acceptance by ASN, copyright transfer will be null and void.

11. I confirm that ALL authors of this Abstract agree to all Call for Abstracts terms and conditions, including the ASN Embargo Policy.

☐ I AGREE to the above Copyright Transfer & Other Terms.
☐ I AGREE to the above Copyright Transfer & Other Terms AND notify ASN that this Abstract represents work done by individuals who work for the U.S. Government.

(ASN will accept this electronic agreement in lieu of a faxed signature.)
