

ASN *Kidney News* Copyright Transfer Agreement

Date:

Manuscript Title:

I attest that I am the sole author or one of the authors of the manuscript (herein after referred to as "the Work") specified above.

Copyright Transfer

In consideration of the publication of the Work, the undersigned Authors (herein after referred to as "Author" or "Authors") transfer and assign to the American Society of Nephrology ("ASN") and its successors and assigns all rights in the Work of whatsoever kind of nature, including those now or hereafter protected by the copyright laws of the United States and all foreign countries, as well as any renewal, extension, or reversion of copyright, now or hereinafter provided in any country. The Work is deemed to include all material submitted for publication and includes text, figures, tables, Author contact details, and all supplementary material accompanying the Work.

Author understands that ASN retains the right to modify, copy, reproduce, publish and republish, translate, distribute, and promote the Work. Author understands they will not receive any royalty or other compensation for transferring copyright ownership to ASN.

If ASN should decide for any reason not to publish the Work, ASN shall give prompt notice of its decision to the corresponding author, this agreement shall terminate, and neither the author nor ASN shall be under any further liability or obligation.

Original Work and Permissions

Author represents and warrants that their contribution is an original Work not published elsewhere in whole or in part, except in abstract form, that they have full power to transfer and assign the Work, and that the Work contains no matter libelous or otherwise unlawful or which invades the right of privacy or which infringes on any property right.

Author represents and warrants that the Work has not been previously published and that if portions have been previously published, permission has been obtained for publication in ASN's publication, and the Author will submit a copy of the permission release and copy for credit lines with their Work.

Liability

Author shall indemnify and hold harmless ASN, its editors, officers, agents, directors, and employees against any and all claims, losses, damages, liabilities, and expenses (including legal costs and expenses or actions in respect thereof) arising from any breach of this agreement, or ASN's publication of the Work.

Reuse

ASN, in turn, grants to Author the royalty-free right of re-publication in any book of which they are the Author or editor, the right to make oral presentation of the Work in any forum, and the right to make digital or hard copies of the Work for personal and noncommercial benefit, subject to the express condition that lawful notice of claim of copyright be given and as long as the Author does not sell or reproduce the Work or any part of it for commercial purposes (i.e., for monetary gain on the Author's own account or on that of a third party, or for indirect financial gain by a commercial entity). These rights apply without needing to seek permission from ASN.

U.S. Government Employees

A Work prepared by a U.S. Government officer or employee who created the Work outside the scope of U.S. Government employment owns the copyright despite federal employee status and should sign the agreement above. A Work prepared by a U.S. Government officer or employee as part of their official duties is not eligible for U.S. copyright. If at least one of the Authors is not in this category, the Author should sign the transfer agreement above. If all of the Authors are in this category, one of the Authors should sign below and indicate their affiliation.

Conflicts of Interest

Authors should include a declaration of all relevant conflicts of interest in the manuscript upon submission.
